

Hypocrisy, Seeds Of The Chosen One

seeds of the chosen one

??

??

its like a russian roulette

this time I know we went to far playing god
it will rape another soul
if things never end you can count me out
it will never last another day

we're on our way to see the undead
we're on our way to get a raise
time is taking muderous twists
and we'll all loose control

science isnt murder
and you arent god
you and I are not included
step aside move away and move along

now I know we went to far playing god
time is up for the human race
we've already passed the point of no return
we're already out of the game you and I
it will never last another day

we're on our way to see the undead
we're on our way to get raise
time is taking murderous twists
and we'll all loose control
