

Hypocrisy, Watch Out

It's saying you my thing and now your... is full 'cause you the one in your way
It's time to move on, I don't have time for you
You just moving yourself

You better watch out!
It shows all your place,
You better watch out!
I've seen it before, you laughing / nothing my back

You lie it to say, no one believing you, including yourself
Who are you, what do you want?
You know, you talk too much, it's burning all in your tongue

You better watch out!
It shows all your place,
You better watch out!
I've seen it before, you laughing / nothing my back

You better watch out!
It shows all your place,
You better watch out!
I've seen it before, you laughing / nothing my back

You better watch out!

You better watch out!
