

I Blame Coco, In Spirit Golden

Fall into flames and you won't do it again
You've learned a lesson that you've never been taught so
Crawl into blame that you will never reclaim
It is a blessing that you'll never get caught oh

But underneath we are golden
Hold them, we made them
Our hearts beat control them
Too fast, too fast for me tonight

I've seen souls in spirit golden
And I've seen souls in spirit gold
Now I've cleaned myself from that unsettling light
It was too bright for me and the love in my life
But if you capture me I'll be within your sight
It was too bright for me, it was too bright tonight
It was too bright tonight

Before the insults and post the praise
You are the subject of a sugarcoat crosshair
During the shell shock of a crystal maze
You are important at your opening funfair

However underneath we are golden
So hold them we saved them
Our heartbeats, control them
They're too fast, too fast for me tonight

I've seen souls in spirit golden
And I've seen souls in spirit gold
Now I've cleaned myself from that unsettling light
It was too bright for me and the love in my life
But if you capture me I'll be within your sight
It was too bright for me, it was too bright tonight
It was too bright tonight

Here by a circus on this moonlit night
With the lukewarm light is not too frightening
Here by a settle at the starboard side
If you only vouch for me
On this golden night, on this golden night
Oh my burning eyes

I see souls in spirit golden
I see souls in spirit gold
Now that I've cleaned myself from that unsettling light
It was too bright for me and the love in my life
But if you capture me I'll be within your sight
It was too bright for me
It was too bright tonight
