

I Blame Coco, Quicker

I am the waste, and you shall be waiting here
You are the place, and you can place me anywhere
We're on our way, we're on our way away from here
But if we don't stop now
Instead of living in this old horse town
I want it back in again, let it devour my skin
But we won't stop now

If we could only be quicker, and be quick to be kind
If we could only be faster, then we could outsmart time

I am afraid, afraid of losing time
You are the race, and I'll be racing your mind
We're on our way, we're on our way away from here
But if we don't stop now
Instead of living in this old horse town
I want you back in again, let you devour my skin
But we won't start now

If we could only be quicker, and be quick to be kind
If we could only be faster, then we could outsmart time
If we could only be quicker, and be quick to be kind
If we could only be faster, then we could outsmart time

So hold me as I hold you, hold me 'till I drown
Well you could be quicker, and quick becomes the sound
So hold me as I hold you, hold me to the ground
Well I could be faster, and fast becomes the hound

If you could only be quicker, you'd be quick to be kind
If you could only be faster, then you could outsmart time
If we could only be quicker, and be quick to be kind
If we could only be faster, then we could outsmart time
So hold me as I hold you
Hold me to the ground
