I Blame Coco, Quicker

I am the waste, and you shall be waiting here You are the place, and you can place me anywhere We're on our way, we're on our way away from here But if we don't stop now Instead of living in this old horse town I want it back in again, let it devour my skin But we won't stop now

If we could only be quicker, and be quick to be kind If we could only be faster, then we could outsmart time

I am afraid, afraid of losing time You are the race, and I'll be racing your mind We're on our way, we're on our way away from here But if we don't stop now Instead of living in this old horse town I want you back in again, let you devour my skin But we won't start now

If we could only be quicker, and be quick to be kind If we could only be faster, then we could outsmart time If we could only be quicker, and be quick to be kind If we could only be faster, then we could outsmart time

So hold me as I hold you, hold me 'till I drown Well you could be quicker, and quick becomes the sound So hold me as I hold you, hold me to the ground Well I could be faster, and fast becomes the hound

If you could only be quicker, you'd be quick to be kind If you could only be faster, then you could outsmart time If we could only be quicker, and be quick to be kind If we could only be faster, then we could outsmart time So hold me as I hold you Hold me to the ground
