

# I See Stars, are we 3ven?

Are we even  
Are we even  
Are we even now  
Are we even  
Are we even  
Are we even now

Up to me  
Is it up to me  
To untangle you  
From the floor  
I'm drowning in  
Your shallow creek  
And you just watch  
Me from the shore

A storm coming from the horizon  
I saw this coming for a long time  
You always seem to keep things quiet  
Quiet

Hollow  
I hear my voice echo through you  
You're hollow  
Hollow  
I hear my voice echo through you  
You're hollow hollow hollow hollow

Up to me  
Is it up to me  
You dangled the truth  
While keeping score  
I'm falling from  
Ten thousand feet  
Behind your pain  
Is so much more

A storm coming from the horizon  
I know it's hard to swollen sometimes  
You know it when the room goes quiet  
So quiet

Hollow  
I hear my voice echo through you  
You're hollow  
Hollow  
I hear my voice echo through you  
You're hollow hollow hollow hollow

Do you break like glass  
Are we even now?  
My world is bleeding world is bleeding  
Are we even now?  
Do you break like glass  
Are we even now?  
My world is bleeding world is bleeding  
Are we even now?

Are we even  
Are we even  
Are we even now  
Are we even  
Are we even  
Are we even now

Are you hollow  
I hear my voice echo through you  
Are you hollow  
Hollow  
I hear my voice echo through you  
You're hollow hollow hollow hollow

Do you break like glass  
Are we even now  
The world is bleeding  
World is bleeding  
Are we even now
