

IAMX, North Star

4 a.m.

Raging hard and I feel like I'm a child again
Neon streets
I'm so high, I can't quiet my bionic mind

North star, I need you to guide me home!
North star, I need you to guide me home!

I need help
I've done bad things and I cannot make them disappear

I want flesh to bring me happiness
Coz I feel nothing

North star, I need you to guide me home!
North star, I need you to guide me home!

It's the blue hour again
In the world there is a horror of plagues
Do you still love me?

Stand tall,
Shoulders back,
Feeling brave
Who am I?
Who am I?

Reprogram, repeat
Reprogram, repeat
I am real, I am good
I am real, I am good

North star, guide me home!
North star
