

IAMX, Oh Cruel Darkness Embrace Me

Worship the scream, cocksucker lies
There's a scream of middle class hypocrisy tonight
Every time we beg for the rich man to provide
There's countries to be conquered, people to divide...

Oh, cruel darkness, want you to embrace me
It's a fucked up world and it's driving my poor heart crazy!
Oh, cruel darkness, want you to embrace me

We're all sleepwalkin' the american dream
In a loop of building a cage and burying the keys
There's only good and bad, there's nowhere in between
Everybody loves to judge, everybody thinks they're clean...

Oh, cruel darkness, want you to embrace me
It's a fucked up world and it's driving my poor heart crazy!
Oh, cruel darkness, want you to embrace me
It's a fucked up world and it's driving my poor heart crazy!

(Oh, cruel darkness, want you to embrace me)
(It's a fucked up world, and it's driving my poor heart crazy)
(Oh, cruel darkness, want you to embrace me)
