

iann dior, complicate it

Oh-oh, oh-oh

I'm sick of being in the same situation with you
Hard times getting harder every day to consume
You mix lies with what happened, got me thinking it's true
You always complicate it
I'm sick of being in the same situation with you
Hard times getting harder every day to consume
You mix lies with what happened, got me thinking it's true
You always complicate it

Girl, why you playin'?
Life could be amazing
But we go through these phases
I don't think that I could change ya

Talk, girl, what you wanna say? (What)
Really had a hard time going through the change (Yeah)
You say you feeling heartbroke, I ain't do a thing (No)
You love to walk around where you ain't suppose to be (Ooh)
You know I got a hard time with letting you go
Mixed feelings bottled up, getting out of control
I really don't think that it's part of my role
You keep switching up on me

I'm sick of being in the same situation with you
Hard times getting harder every day to consume
You mix lies with what happened, got me thinking it's true
You always complicate it

Dragging me along for entertainment (Oh)
A crazy way of showing how you feel before you say it (Say)
You started mixing up your words, switchin' up so fast
Better guess it how it ended, how to make this last
Rollercoaster, going through the highs and lows
I keep riding when the tracks are froze
I'll admit it, I'm scared
No telling where it's 'bout to go (What)
It's weighing on me and it really shows, uh-oh

It's complicated enough, when it don't gotta be (Gotta be)
Was probably safer to jump, but it's too late for me (Late for me)

I'm sick of being in the same situation with you
Hard times getting harder every day they consume
You mix lies with what happened, got me thinking it's true
You always complicate it
