

IC3PEAK, Collapse

I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever

I see your face
I see it melts
Once and forever
First time forever
I got you now in my arms
You lose your face in my arms
Once and forever
First time forever

You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air

I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever
First time forever

I see your face
I see it melts
Once and forever
First time forever
I got you now in my arms
You lose your face in my arms
Once and forever
First time forever

You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air
You slip off, you disappear
You turn pale, you blend with air

I see your face
I see it melts
Once and forever

First time forever
I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever
First time forever
I see your face
I see it melts
Once and forever
First time forever

I see your face
I see it melts
Once and forever
First time forever
