

# Iced Earth, Hollow Man

Emptiness, consuming me  
Head in hands, I can hardly speak  
Looking for solitude  
Lost in humanity  
True knowledge leads to a suffering  
A constant quest, an endless dream  
Searching for inner peace  
Hidden so deep in me

Chorus:

Don't wanna be a hollow man  
Ain't gonna be the hollow man  
Don't wanna be a hollow man  
Ain't gonna be the hollow man

Sadness comes knocking constantly  
Filling up my eyes for all to see  
Peace will come some day  
I pray that it finds a way  
Darkness caressing my mind and soul  
My spirit's rejecting, I'm feeling whole  
Emptiness goes away  
Fills with the light of day

Chorus

Bridge:

I rise up like the Phoenix  
Form the ashes of an older way  
With wisdom gained, I turn away  
I turn away  
Hollow man find yourself some other prey

Chorus
