

Icehouse, Mysterious Thing

She tells me that she has to go, she says that it's all over now
She knows how to break me, she knows that it's easy
But when the rain is coming in, she calls me on the telephone she says
"Where did you get to? So come on I need you"

It's a mysterious thing, well it's something I can't explain
Mysterious thing, got me under the spell again
It's a mysterious thing, don't believe what my eyes can see
Mysterious thing, strangest feeling is holding me
So give me an answer, girl, what must I do for your love?

She's gonna make you run around, she's gonna keep you hanging on
Wearing her black lace, wild-eyed and reckless
But before you throw it all away, just think of what it does to me
Why must I go on? Wishing and praying

It's a mysterious thing, well it's something I can't explain
Mysterious thing, got me under the spell again
It's a mysterious thing, don't believe what my eyes can see
Mysterious thing, strangest feeling is holding me
So give me an answer, girl, what must I do for your love?

Ooh ooh ooh ooh ooh, mmm, mmm, mmm, mmm
It's a...It's a...It's a...mysterious thing
Give me an answer, girl, what must I do for your love? Mmm, mmm

It's a mysterious thing, well it's something I can't explain
Mysterious thing, she's got me under the spell...under the spell
It's a...It's a...It's a...
Don't believe what my...Believe what my...Believe what my eyes
Mysterious thing, well it's something I can't explain, no, no
It's a mysterious thing, heading under the spell...under the spell
Mysterious thing
