

# Icehouse, On My Mind

Out on the highway, where does it go? Don't think I really care now  
And I just know, I don't need you now, does it matter going nowhere  
Well I said to myself, I got to leave her, far behind but  
But now I wonder, it's all very wrong, you're always on my mind, yeah  
Night and day, mile after mile with only the time between us.  
'Cause it was something I had to do, you've got to take some chances  
You know me girl, know me too well, you know it's so easy 2 run, but  
Something reminds me wherever I go, I could never hide here, but

Oh no, once again, I cannot forget when you're on my mind

Got to keep on no turning back, already know the answers  
I was a loser right from the start, got to take the chance, yeah  
Makes no difference, no difference at all, every time it's just the same  
Follow me here in a matter of time, before we meet again but

Oh no, once again, I never forget when you're on my mind  
Oh no, on my mind, my mind, yeah

I could never hide here...I could never hide here, but...

Oh no, once again, I cannot forget when you're on my mind  
Oh no, once again, oh ho, I never forget when you're on my mind  
My mind, ooh ooh ooh
