</lyrics>

Tainting the sky, shaking the earth
An ancient will that assaults this planet
Throw away your fears Ahh Close your eyes
Oh Spirit of Steel now S! R! X! Anger!

The form of a Wargod of Steel
Who has changed kindness into fighting spirit
"Gaun Genocider!"

No mercy for those who threaten this world
We won't lose you and I and Super Robot Spirits
Grab hold of a peaceful future with these hands
I believe your power oh Wargod of Steel

Though my arm is a machine
I understand your passionate sense of justice
I've been waiting Ahh For the flames of life
Carve the Spirits of Steel S! R! X! In your heart

The form of a Wargod of Steel

Who has changed sorrow into fighting spirit
"Blade Knuckle!"

No mercy for those who trample on this world
Burn up courage and love and Super Robot Spirits
Create a new legend with these hands
I believe everything about you oh Wargod of Steel

The form of a Wargod of Steel
Who has changed kindness into fighting spirit
"Gaun Genocider!"

No mercy for those who threaten this world
We won't lose you and I and Super Robot Spirits
Grab hold of a peaceful future with these hands
I believe your power oh Wargod of Steel
