

Ida Jenshus, Little Blue

I can't keep you
I know they think it's wrong
I can't hold you
My arms are not that long

See the star
That shines tonight for you
I'm gonna keep you in my heart
My little blue
My little blue

There's a place that I know
Where you and I sometimes go
You pick flowers
And I watch you grow
You get those eyes
Just like hers when she smiles
They're nothing but blue
Just like yours

I see heroes
I see that burning light
I feel you slipping
Still wanna hold you tight

They say I chose
I chose the easy way
But the hardest thing I've done
Is leaving you today
My little blue
