

Ideal, All About You

(intro)

Oh, oh yeah
It's all about you
It's all about me
Baby, baby
Oh, yeah, yeah, yeah

It's all about you
It's all about me
It's all about us
I got what you need
You've got what I want
I got what you need
It's all about you
It's all about me

Sweet and loving
Is what you are to me
Life has more meaning
You're everything I need
My runaround days are over
It's time for me to settle down
With a special girl like you
I don't need to fool around

It's all about you
It's all about me
It's all about us
I got what you need
You've got what I want
I got what you need
It's all about you
It's all about me

Something tells me
That you're mad at me

Oh, what could it possibly be
Girl can't you see
There's nothing I would do
To make you leave
Girl there's a promise to you
You sure 'nuff can believe it
Baby, baby, babe

Precious sweetness
You're looking so good
Keep thinking bout the times I wished that you
Share a special night
You and me baby
Now listen up, listen up
Ideal won't you sing it for me

It's all about you
It's all about me
It's all about us
I got what you need
You've got what I want
I got what you need
It's all about you
It's all about me

It's all about you

It's all about me
It's all about us
I got what you need
You've got what I want
I got what you need
It's all about you
It's all about me

It's all about you
It's all about us
