[Female] Who is this
[Male] You know who this is

1st Verse

Hey there how you doin' how you been
Been a couple of weeks since I talked to you
Sorry that it's taken me so long
To reach out to you
But I'm wondering maybe possibly say it again
Maybe could we get together this weekend
I still remember the way you felt
The way you smelled and the sexy way you wore your hair
Girl, can you tell me are you available
Cuz if you don't mind, I wanna book you a flight

Chorus

Meet me at the creep inn
We can spend the weekend
I got what you're seeking
We could start creepin'
Just jump in your ride girl
I'll be there on time

Meet me at the creep inn
We can spend the weekend
I got what you're seeking
We could start creepin'
Just jump in your ride girl
I'll be there on time, baby

2nd Verse

I remember every detail about that night
Just you and I, bumpin in a suite back in July
And I remember at first you were afraid to try
Every little itty bitty thing that was on your mind
Now I got some new details that we'll share
I hope you care enough for me to go there
Interesting detail, that of you and I
Locked in a room by candle light
You're flight lands at nine
Let's go for a ride

Repeat Chorus

[Spoken]
Come on
I've been waiting too much to get with you
Oh, and now that I got you
I'll do you right
You put the sign outside the door

We ain't taking no phone calls
You're mine

Repeat Chorus until fade
