## Idle Sons, Bleeding

I can't destroy myself For things set upon the shelf, or Those days when you played the whore You're waging a war you can't win

You die Inside The one thing that you'll never hide You cry It's the bleeding of the heart The meaning of it all The bleeding of your everything I know It's the bleeding of the heart The meaning of it all The bleeding of your everything I know

Now that you've found yourself You're engaged Enraged Nothing more those things you once could conquer Have come back around after all

You die

Inside The one thing that you'll never hide You cry It's the bleeding of the heart The meaning of it all The bleeding of your everything I know It's the bleeding of the heart The meaning of it all The bleeding of your everything I know

I will find you I will find you I will find you I will find you

It's the bleeding of the heart The meaning of it all The bleeding of the heart The bleeding of your everything I know It's the bleeding of the heart The meaning of it all The bleeding of your everything I know
