

Idle Sons, Tell Me

Once you give up
You'll never know
Everything you could have been and even more
Don't be to blame
You gotta keep it moving on

Up the middle and out the end
Why kid yourself it's not so easy you pretend
That we are all the same
When we're playing the game

I need you to
Tell me you're all right
It's not the end of our ride
Tell me you're uptight
Will you forget about yesterday

Pick up the pieces
And carry on
Don't look back
Don't regret
Don't become someone always holding on

Tell me you're all right
It's no the end of our ride
Tell me you're uptight
Will you forget about yesterday

You've said enough
Not listening
Not following
You've said enough
Take a seat in the back while I wait for you

Tell me it's daylight
It's not the end of our ride
Tell me you're uptight
Will you forget about yesterday

Tell me it's daylight
It's not the end of our ride
Dammed if it is
Dammed if it ain't
Will you forget about yesterday

Dammed if it is
Dammed if it ain't
Will you forget about yesterday

Tell me you're alright
Will you forget about yesterday
Tell me you're alright
Will you forget about yesterday
