

IdleMiND, Ambidextrous

Every heartbeat brings a brand new phobia

It's never impossible
To see myself falling down the drain
I'm not ambidextrous
But I can still

Choke the living hell out of you

Dance puppet, dance

Keep digging, you're losing it
Desperate is written all over you

It's not impossible
To see myself pushing you away
I'm not ambidextrous
But I can still

Choke the living hell out of you

Let's start a war

Choke the living hell out of you

We're all just clowns in plastic skin
There's no reason for sleeping in
Get up and get your colors on
There's a show out there that we're all on
