It's cool to stay still  
If I move let me know  
I'm not sure if I will  
So it's best to take it slow

Just blow me in the right place  
And when I'm there  
You'll fall in love with my face

I'll keep it off if I come  
No one wants a mess  
Well, maybe some  
But mostly less

Just blow me in the right place  
And when I'm there  
You'll fall in love with my face

I've got a gun  
It wants to taste  
Just like my tongue  
Inside your face

Just blow me in the right place  
And when I'm there  
You'll fall in love with my face

Just blow me in the right place  
If you give me head  
I'll give you face
