

IdleMiND, Boregasm

It's cool to stay still
If I move let me know
I'm not sure if I will
So it's best to take it slow

Just blow me in the right place
And when I'm there
You'll fall in love with my face

I'll keep it off if I come
No one wants a mess
Well, maybe some
But mostly less

Just blow me in the right place
And when I'm there
You'll fall in love with my face

I've got a gun
It wants to taste
Just like my tongue
Inside your face

Just blow me in the right place
And when I'm there
You'll fall in love with my face

Just blow me in the right place
If you give me head
I'll give you face
