

# Idlewild, A Distant History

This fascination  
where did it come from?  
what does it mean  
when your fascinated by things?

but you know, you'll never see

i overheard this conversation  
as it started to belong to me

your convinced that where your born is where your from  
no, your convinced that where your born is not where your from  
its only where your  
waiting to see it through  
and not understanding why i had to

be reminded that i'll tell you when i  
waiting for longer than i had to  
or could you just tell me now  
couldnt you tell me, now?

even more money spent  
nothing left to go round  
even more money spent  
nothing left to go round

all these descriptions  
where did they come from?  
do they describe what you mean  
perfectly?  
and how can i explain to you  
how i know that  
its a natual order of the things that i believe

your convinced that where your born is where your from  
no, your convinced that where your born is not where your from  
its only where your  
waiting to see it through  
not understanding why i had to

be reminded that i'll tell you when i  
waiting for longer than i had to  
or could you just tell me now?  
couldnt you tell me, now?

even more money spent  
nothing left to go round  
even more money spent  
nothing left to go round  
nothing left to go round  
nothing left to go round  
nothing left to go round
