

Idlewild, Satan Polaroid

The sea is never calm
it always blows and knows it too
but I'm alone
I'm alone in the satan polaroid
I said it always seems kinda strange
and the drinking has got under aged
i said it always seems kinda strange like a sad happiness
this is happiness and I fall
you said you feel so alone
(dont make me feel so alone)
you said you feel so alone
(don't make me feel so alone)
what makes you feel so alone?
(dont make me feel so alone)
so don't feel alone

The sea is never calm
it always blows and knows it too
but I'm alone
I'm alone in the satan polaroid
I said it always seems kinda strange
and the drinking has got under aged
it always seems kinda strange like a sad happiness
this is happiness and I fall
you said you feel so alone
(dont make me feel so alone)
you said you feel so alone
(don't make me feel so alone)
what makes you feel so alone?
(dont make me feel so alone)
so don't feel alone

(I look outside, I look outside, I look outside, I look out)
things would be scary if you didn't care about anything
I need to care about something
I need to care about something

I said it always seems kinda strange
and the drinking has got under aged
it always seems kinda strange like a sad happiness
this is happiness and I fall
you said you feel so alone
(dont make me feel so alone)
you said you feel so alone
(don't make me feel so alone)
what makes you feel so alone?
(dont make me feel so alone)
so don't feel alone

you see that
you're only young once in this world
