

# Idols Teen, Our Love Is Like A Song

I started out to find my dream  
' gave it all  
But nothing worked 'til i found you  
I knew i had to take the chance  
And make the call  
Sometimes you got to follow through  
NOw as i'm standing here  
Lookin at you tonight  
I just know deep down inside  
that i was right

Our love is like a song  
Now we can sing together  
SOMetimes we get it wrong  
It really doesn't matter  
'Coz nothing else so true  
as the melody in you  
Just knowing that you're there  
Just knowing we belong  
Our love is like a song

Tell me is it love I feel  
Coz baby this is so unreal  
Tonight is changing everything  
WE're walking through the shades of grey  
til i turn tonight today(?)  
This love is changing everything  
Now as i'm standing here  
Looking at you tonight  
I just know deep down inside  
That i was right

Our love is Like a song...  
We sing it over and over  
Coz that's the way it goes  
The highs and lows  
The perfect harmony  
THE perfect harmony  
For life  
Our love is like a song...

our love is like a song.
