

# Iggy Pop, I Snub You

You are a moron  
I'm glad to be here  
Seeing the sight of you  
Smelling the smell of you

You most deplorable glaring example  
Of a degenerate narcotic influence  
My seething hate is driving me nuts  
What can I do to obliterate you

I snub you  
I really hope you're one of a kind  
You don't care who you brutalize  
You are a bully plain and simple

You are a beast you are a pig  
You've been a pig for long enough now  
I'm making my move  
I'm making an end to you

I snub you  
And when I snub  
I really snub  
I snub you finally, forever

Is she really going out with him?  
Now is the time  
I'm playing my ate  
I'll give you a mouthful you can't swallow

Unquestionably I've been lacking in taste  
You're being cheerful but not for long  
Your Mum and Dad they sure made a mess  
You're going to look like watercress

When I snub you  
He snubs you  
We snub you  
Dogs snub you  
I snub you
