

Iggy Pop, Instinct

Standing on the borderline
Between joy and reason
Tending carefully my fire
Waiting for my season
I know who these people are
I know what they stand for
Corruption's built into this plan
Nothing's under the other hand

Tricks and trials await the child

Instinct keeps me running
Running like a deer
Instinct keeps me running
Running through the grinning shadows

I have seen the sludgy beach
And the poisoned river
I have met the lordly rich
They're just getting stiffer
This whole place is like a maze
Or like some Medusa
Let me out I can't accept
A certain read life story

Tricks and trials await the child

Instinct keeps me running
Running like a deer
Instinct keeps me running
Running where the sorrow bless me
Instinct keeps me running
Running like a moose
Instinct keeps me running
Running to keep one chance open

Marks on walls, the common outlet
Tell the truth and always will
Marks on wall destroy the thought
Of perfect sunny civilization

Tricks and trials await the child

Instinct keeps me running
Running like a deer
Instinct keeps me running
Running through the grinning shadows
Instinct keeps me running
Running like a bear
Instinct keeps me running
Running to keep one chance open
Instinct keeps me running
Running cause I don't believe it
Instinct keeps me running
Running through the bare emotion
Instinct keeps me running
Instinct keeps me running
Running
I'm running, running, running, running
