

Iggy Pop, It's Our Love

I found you lookin' for the rainbow
You found me waitin' for a chance
Now we got something good together
A life where we have joined our hands
And there ain't nobody gonna break that
Our love
And there ain't nobody gonna break it
Our love
Our love
I didn't have too much to offer
You didn't have much to expect
A cold hotel room full of trouble
Beside a blinkin' traffic light
On all night
And there ain't nobody gonna break this
It's our love
There ain't nobody gonna take it
Not our love
Nobody's gonna take this
It's our love
Love
I know the feeling of being outside
Alone and watchin' all the fun
The crowd's together, laughin' loudly
And long
But that type - they're never really strong
An' there ain't nobody gonna take it
An' there ain't nobody gonna break it
An' there ain't nobody gonna take it
There ain't nobody who's gonna break it
It's our love
