

# Iggy Pop, Monster Men

Pop

Five little monsters were riding through space  
Their spaceship broke and they fell into this place  
They gotta get out but they don't know how  
So they're waiting and waiting in a creepy creepy house  
The whole human race is already pretty loony  
But the ones who move in this house are gonna go boony  
Monsters live on tv never in the zoo  
Hang around with us and you'll be a monster too  
Lalala lalalala we like monster men

Gorgious is a great big guy but he's fat from too much pie  
Bud is cool of course it's true but he's a tv fool
