

Iggy Pop, Not Right

She's not right
I want something I want something tonight
I want something
I want something, all right
But she can't help because she's not right
No, no, no, no,
It's always, it's always this way

I'm not right
She wants something she wants something tonight
She wants something
She wants something, all right
But I can't help because I'm not right
No, no, no, no,
It's always, it's always this way
