

# Ilkay Sencan, Talk (INNA)

Got me out of my head  
Lost half of my mind for nothing  
Everything that I said  
Swallowed all my pride and burden, mmm

But you left anyway, away  
You said I got to go, I got to  
Didn't even care I loved you  
Lost half of my mind for nothing (For nothing)

Now you wanna talk  
Talk about why I was left there on my own  
Now my mind is alright and I healed my broken bones  
Now you wanna give a fuck but baby I don't, don't, don't, uuh  
Now you wanna talk  
Talk about why I was left there on my own  
Now my mind is alright and I healed my broken bones  
Now you wanna give a fuck but baby I don't, don't, don't, uuh

Better leave it unsaid  
Shut your mouth and close the curtain  
Left me once and you leave again  
There's no doubt I'll do it perfect, mmm

Yeah, you walked away, away  
You said I got to go, I got to  
Didn't even care I loved you  
Lost half of my mind for nothing, for nothing

Now you wanna talk  
Talk about why I was left there on my own  
Now my mind is alright and I healed my broken bones  
Now you wanna give a fuck but baby I don't, don't, don't, uuh  
Now you wanna talk  
Talk about why I was left there on my own  
Now my mind is alright and I healed my broken bones  
Now you wanna give a fuck but baby I don't, don't, don't, uuh

Now you wanna talk  
I don't wanna talk no more  
I was left there on my own  
I was left there on my own

You can tell me nothing oh, nothing oh, nothing oh  
Tell me nothing oh, nothing oh  
You can tell me nothing oh, nothing oh, nothing oh  
Now, now you wanna talk, no, no, mmm
