

# Ill Nino, Finger Painting (With The Enemy)

I like to bless myself to sleep  
While I play with all the pieces  
That protect my energies  
Get it out to the outside  
Give it out from the inside  
It's so fun to be by myself / Who can I blame but myself  
There's no one here but me

So far  
No me protestes  
I don't give a fuck what you think  
Rockstar  
No me investiges  
The fascists are getting the lead

So you think that you know me  
Got it all figured out  
Well I might be dead in your eyes  
But I'm still alive and I  
Will never follow anything else

I serenade myself to sleep  
And I'm gripping (pulling) on the pieces  
That deflect my enemies  
Give it all from the inside / Build it up on the inside  
Get it all on the outside  
I'm having fun by myself  
With no one here but me

So far  
No me protestes  
I don't give a fuck what you think  
Rockstar  
No me investiges  
The fascists are getting the lead

So you think that you know me  
Got it all figured out  
Well I might be dead in your eyes  
But I'm still alive and I  
Will never follow anything else
