

# Ill Nino, Re-Birth

Corre perro come mierda  
This is what you get now  
You think that you can get away  
You little pig

Corre perro come mierda  
This is what you get now  
You think that you can get away  
You little pig

Sucker, nothing left to lose  
Nothing left to choose  
And suffer, everything you do comes back  
And

Get what you're gonna get  
When you get  
What you get  
To live inside of me

Learn what you're gonna learn  
When you learn  
How to burn  
To live inside of me

Then, I was only just a boy  
Dying young and growing old  
But I know what I knew was wrong

My whole family lied to me  
By their rules, I cannot be  
Led by the lies out of my face

Get what you're gonna get  
When you get  
What you get  
To live inside of me

Learn what you're gonna learn  
When you learn  
How to burn  
To live inside of me

Nothing you did  
You left me here for dead  
Something in me  
Just let me be

Get what you're gonna get  
When you get  
What you get  
To live inside of me

Learn what you're gonna learn  
When you learn  
How to burn  
To live inside of me

And if you think you got the answer  
Well think again 'cause you know  
Better than this yourself  
So ask that question to yourself

So ask yourself just who you are

Where you've been  
What you know  
Where you'll go

Get what you're gonna get  
When you get  
What you get  
To live inside of me

Learn what you're gonna learn  
When you learn  
How to burn  
To live inside of me

Nothing you did  
You left me here for dead  
Something in me  
Just let me be

Nothing you did  
You left me here for dead  
Something in me  
Just let me be

Corre perro come mierda

You think that you can get away
