

# Ima Robot, Cool Cool Universe

Every time they bomb a baby I go insane  
Breathe it off but don't feel the pain  
Start thinkin' to start drinkin'  
Numb yourself to kill the brain  
But I still got pain; I can't stop the rain  
(Can't stop the rain, can't stop the rain)  
Fuck that, what about the thriving  
but it's hard to be alive  
When everybody's just jivin'  
All eyes on me, I'm gonna set the truth free  
Contradictions

Cause it's a cool cool cool cool universe  
And all the wonderful things just make it worse  
I've gotta (oh oh oh oh oh) it hurts  
it's such a cool cool cool cool universe  
Aww

Every time they tell me to vote I lose my hope  
You represent me? Now that's a joke  
Start rootin' for some shootin'  
No solution for what's broke  
But I still got hope; I can't shake the hope  
(Can't shake the hope, can't shake the hope)  
Don't give me the lies  
Man, I know there's no rhyme or reason  
Still everybody's schemin'  
To prove they know the meaning of this big mess  
Well, I'm not impressed  
Disillusioned

Cause it's a cool cool cool cool universe  
And all the wonderful things just make it worse  
I've gotta (oh oh oh oh oh) it hurts  
It's such a cool cool cool cool universe  
And it's a cool cool cool cool universe  
And all the wonderful things just make it worse  
I've gotta (oh oh oh oh oh) it hurts  
It's such a cool cool cool cool universe

Oh. Ow.  
Stop. It hurts.  
Pretty things  
make it worse.  
Soon ima hit the dirt  
So unfair, such dispair.  
Poetry, beauty, desperation of love  
I'm talkin' bout romance, slow dance, can't get enough  
I've climbed all the highest mountains  
I've done every drug in reach  
I've made love to pretty women  
While the sun set on the beach  
But no good time goes unmourned  
No good heart goes untorn  
Good or bad, it's all sad  
And my acceptance is born

Cause it's a cool cool cool cool universe  
And all the wonderful things just make it worse  
I've gotta (oh oh oh oh oh) it hurts  
it's such a cool cool cool cool universe  
And it's a cool cool cool cool universe  
And all the wonderful things just make it worse  
I've gotta (oh oh oh oh oh) it hurts

it's such a cool cool cool cool universe  
Aww  
Break my heart
