

# Ima Robot, Two Hearts Too Young

Remember me,  
The one with the heart?  
Come see me now.  
Remember me,  
The one with the soul?  
Come see me now.  
Remember how high we used to fly?  
Come see me now.  
Remember how we held up the sky?  
Come see me now.  
Its crashed.

The dreams we killed  
The blood we spilled  
We had our run:

Two hearts too young  
The love we built  
The sky we filled  
It crashed and spun

Two hearts too young  
The dreams we killed  
The blood we spilled  
We had our run:

Two hearts too young  
The love we built  
The sky we filled  
It crashed and spun

Two hearts too young  
All the lust for life in our blood

Come see me now.  
All the love that spilled from our guts  
Come see me now.

Remember me,  
The one with the heart?  
Come see me now.  
Remember how it all fell apart?  
Come see me now  
I'm gone.

The dreams we killed  
The blood we spilled  
We had our run:

Two hearts too young  
The love we built  
The sky we filled  
It crashed and spun

Two hearts too young  
The dreams we killed  
The blood we spilled  
We had our run:

Two hearts too young

Two hearts too young

Well I guess we were just too young (laughs)

Two hearts too young  
Two hearts too young

Hey, come see me now  
I'm gone.
