

# Imagine Dragons, Children of the Sky (a Starfield

Some days when I'm dreamin'  
I think of how far I have come  
All my life's led to this  
And now I see what I've become

I always had doubted that I could ever be someone  
That mattered, that shattered all these glass ceilings up above  
All that I want is to see all the things that I could be  
Destiny's calling me

We're children of the sky  
Flying up so high  
Let me be that one  
To find the brightest sun

We're children of the sky  
Guided by the light  
Let me reach new heights  
To stars amongst the night  
We're children of the sky

I can not give up hope though there are storms within my seas  
Won't turn back, when I lack, sometimes it's hard just to believe  
I've wanted to save us from ourselves  
Just wanted to raise up, to save us from ourselves

All that I want is to see all the things that we could be  
Destiny's calling me

We're children of the sky  
Flying up so high  
Let me be that one  
To find the brightest sun

We're children of the sky  
Guided by the light  
Let me reach new heights  
Stars amongst the night

When we look back, what will we see?  
We were a part of everything  
Up in the heavens, down in the seas  
We were a part of everything

When we look back, what will we see?  
We were a part of everything  
Up in the heavens, down in the seas  
We were part of everything

We're children of the sky (children of the sky)  
Flying up so high (stars amongst the night)  
Children of the sky (children of the sky)  
Take me to new heights

We're children of the...
