Imagine Dragons, Drive

Get me right, all it takes is silent night I want my eyes to see these lights hold hold on hold hold on but when it comes it goes I am on my knees, oh forgive me get me right, look at these people flying kites they seem to live forgotten nights hold hold on hold hold on but when it comes it goes I am on my knees oh forgive me

Drive, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh oh I, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh

Oh get me right, all it takes is starry nights I want my eyes to see these lights hold hold on hold hold on but when it comes it goes I am on my knees oh forgive me get me right, look at these seagulls in the air they seem to yell just like we care hold hold on hold hold on but when it comes it goes I am on my knees oh forgive me

Drive, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh oh I, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh oh

Drive, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh oh I, I got my head on aright I got my people strapped tight I got my head on aright oh oh oh
