

Imagine Dragons, The Unknown

woman help me
you turn my head in circles

mama blessed me
with magnet eyes for purple
oh so let me show you something good

Pastor, Preacher
I want to say I'm sorry
nice to meet ya
I think my eyes are starry
pledge allegiance to my only

sooner or later it all comes around
hopefully then I will see
after the people and places are gone
you will come back, you will come back to me, to me, to me
you will come back to me, to me, to me

auntie Mara I think you know my reasons
I was a product of everything in season
oh so heavy
set me free again

oh my papa
if all the world could know you
you could stop a thousand wars across the globe
oh I miss ya
show them something good

sooner or later it all comes around
hopefully then I will see
after the people and places are gone
you will come back, you will come back to me,
to me, to me
you will come back to me, to me, to me
to me, to me
