

# Imani Coppola, Help the residents

Help the residents

Somebody teach this man to talk before he speaks

somebody tell this man to think before he talks

somebody reach this man and slap his hand with some piece of mind

You can put two ass's in the nation

just ask the nation

or you can help the president, help the residents

Somebody give this man a proper English course

somebody give this man a lasso and a horse

somebody tell this man he stutters when he blinks

you can put two asses in the nation

just ask the nation

or you can help the president, help the residents

this is a new day

this is a new way

Tuesday knows

and Tuesday grows

call all your brothers

call all your mothers

call everyone

and tell them that you love 'em

this is a new day...yes
