

# IMMINENCE, Desolation

Hold your breath and count to ten  
Promise me it's not the end  
Take control and breathe me in  
Over and over, again and again

I feel it in my bones  
Deep beneath my skin  
Why can't I close my eyes  
From everything inside

This is the black  
There's no coming back  
Back from the darkness  
How did I become so heartless

Searching for a light  
In the dead of night  
Desolation  
Raining down on me

No matter how I try  
To make it out alive  
Desolation  
Have mercy on me

Silence swallow me whole  
Let darkness unfold  
Consumed by the wasteland  
This is my last chance  
To make it out alive

There's blood on my hands  
There's no catharsis  
I've become so heartless

Searching for a light  
In the dead of night  
Desolation  
Raining down on me

No matter how I try  
To make it out alive  
Desolation  
Have mercy on me

Hold your breath and count to ten  
Promise me it's not the end  
Take control and breathe me in  
Over and over, again and again

Hold your breath and count to ten  
Promise me it's not the end  
Take control and breathe me in  
Over and over, again and again

No pain without sacrifice

Searching for a light  
In the dead of night  
Desolation  
Raining down on me

No matter how I try  
To make it out alive

Desolation  
Have mercy on me
