

Imogen Heap, Daylight Robbery

Don't mind me, just cruising by
By the girl with the balloon
Good, it looks like we're the only ones around
Caught on CCTV
Heading towards the city lights
Winking diamonds at me
Arms stretched out now

It gets me everytime
It gets me everytime

(Sexy Baby)
Happiness and silhouettes
Revolving in the deep water indigo
It's high tide, night sky
Pleasure moment
Thinking big
Thinking positive
And itching to get on with it
It's all stops out

Excess
Is the new moderation
Get dressed up
To the power of ten
Raise glasses
On repeat and again, again, again
Again, again, again...

It gets me everytime
It gets me everytime

Oh, wade in the sonic joy
Pleasure the wave and synchronize
Sway in the sonic joy

It gets me everytime
It gets me everytime

Everytime
It gets me right here
Everytime
It gets me right here
Everytime
