

# Impellitteri, Last Of A Dying Breed

I am the one  
You can see the fear inside their eyes  
Break into the morning show, crime is rising  
Bringing you the video, people dying  
No one knows what's going on, children hiding  
Streets are like a battle zone, widow's crying  
I must face all my enemies  
Protect and defend what is mine  
I will fight until victory  
For I am the one, the last of a dying breed  
Life and death is on the edge, hope is fading  
People jumping from the ledge, suffocating  
Keep alert and watch your back, retribution  
Under siege under attack, no solution  
Eyes of fear, a dying nation  
Chaos rules, you feel the frustration  
No one's safe, a broken system  
Stand my ground, I won't be a victim  
I must face all my enemies  
Protect and defend what is mine  
I will fight until victory  
For I am the one, the last of a dying breed  
I won't live in fear  
I must face all my enemies  
Protect and defend what is mine  
I will fight until victory  
For I am the one, I'm under the gun  
I must face all my enemies  
Protect and defend what is mine  
I will fight until victory  
For I am the one, the last of a dying breed
