

Impellitteri, Out Of My Mind (Heavy Metal)

We live for Rock and roll, together will will rise
We're moshin', in the pit tonight
Horns up and bang your head, my fist is raised up high
And now we're lighting up the sky

Let the music do the talking,
Let the power take you away

I want it loud and feel the pounding in my chest
I love the thunder in the air
I want to scream and shout, escape into the sound
Where you can never hold me down

Let the music do, the talking,
Feel the power take you away

I'm outta my mind with heavy metal
I'm feeding my soul with pure aggression.
I'm crossing the line, into obsession
When all that I love, is heavy metal

I look around and see the rockers everywhere
we are raising up the light
We stand together we are one, we are all
One voice in the concert hall

Let the music do the talking,
As the power takes you away

I'm outta my mind with heavy metal
I'm burning inside and I won't settle
the pounding of steel with heat and fire
is cutting my heart like razor wire

I'm outta my mind with heavy metal
I'm feeding my soul with pure aggression
I'm crossing the line, into obsession
When all that I love is heavy, heavy metal

I'm outta my mind!
