

# Imperative Reaction, Only In My Mind

You know it's true  
And though I tried to hide it  
It shows in you  
I know it's true  
And though you still deny it  
I see right through  
All you won't admit  
But what if you're the reason  
I can't fall far enough to find  
The lies that I depend on exist  
Only in my mind

I know like you  
Though we still deny it  
It shows in you  
You know it's true  
And though I tried to fight it  
I can't see through  
All I won't accept  
But what if you're the reason  
I can't fall far enough to find  
The lies that I depend on exist  
Only in my mind
