

# Imperial Age, The Legacy of Atlantis

See the earth at the peak of it's glory  
Days that are long gone  
The greatest empire of the ancient times  
Behold the light so bright it blinds your eyes!

Atlantis!  
Ancestor of mankind  
Those who have united  
The earth under one name

See the greatest city stand  
In Anabiosis  
What has once ruled all the world  
Mighty Poseidonis

The great pyramids in place  
Shelter us from danger  
We send ships to distant worlds  
Fearing not their anger

We sped up the evolution of mankind  
To see what we are capable of  
And gave birth to a handful of the chosen

There is no time  
There's no space  
There's no death  
There's no life  
No more fear  
For those who have chose  
To adhere  
The divine will continue our job  
When the greatest of wars  
Has destroyed all that's left  
Of our world

Our vessels in the sky  
Built of living fibre  
What we've made will never die  
In the earth on fire

Our knowledge our Lord  
Safely locked inside those  
Whose minds perish never more  
Changing flesh as their clothes

Time will go, the seeds will flourish in the soil  
A new world brings a new round of the coil

Some things never die, others do  
We are like transparent ghosts to you,  
But the things we've made have formed our view  
You can ask your heart we are true

There is no time  
There's no space  
There's no death  
There's no life  
No more fear  
For those who have chose  
To adhere  
The divine will continue our job  
When the greatest of wars  
Has destroyed all that's left

Of our world  
□Nothing lasts forever  
Even greatest treasure  
Risen beyond measure  
We induced our fall  
A matter of time  
All the new religions  
Mystical provisions  
Teachings, revelations  
All stem from one root  
Atlantic knowledge

See the earth at the peak of it's glory  
Days that are long gone  
The greatest empire of the ancient times  
Behold the light so bright it blinds your eyes!
