

Incognito, It Ain't Easy

(J.P. Maunick / Graham Harvey)

We can walk for miles

We can talk for days

Learn about each other always

And though we walk for miles

And we talk for days

Sometimes we let pride get in our way

And for a while something is broken and missing

And I can't tell what's goin' on in your mind

It ain't easy

Getting it right

It ain't easy

Trying to read the signs

It ain't easy

Trying to work out what's going on in your mind

And though we live and learn

Love is give and take

We fall into confusion some days

Where there's fear and need

We keep it all inside

Sometimes we let pride get in our way

And for a while something is broken and missing

And I can't tell what's goin' on in your mind

It ain't easy

Getting it right

It ain't easy

Trying to read the signs

It ain't easy

Trying to work out what's going on in your mind
