

Incubus, Just A Phase (Acoustic)

Incubus - Just A Phase lyrics

I am bottled fizzy water
And you were shaking me up
You are a fingernail running
Down the chalkboard I thought
I left in third grade
Now my only consolation
Is that this could not last forever
Even though you're
Singing and thinking how well
You've got it made
Who are you?
And will you be through
Yeah, it's just a phase
It will be over soon
Yeah, it's just a phase
Yeah, it's just a phase

Call it women's intuition
But I think I'm
Onto something here
Temporaryism has been
The black plague
And the Jesus of our age
I know that
I sound opinionated
May be biased and
Quite possibly jaded
But sooner than later
They'll be throwing quarters
At you on the stage

Who are you?
And will you be through
Yeah, it's just a phase
It will be over soon
Yeah, it's just a phase
Yeah, it's just a phase

And I am waiting for
It to be over too
