Incubus, Just A Phase (Acoustic)

Incubus - Just A Phase lyrics I am bottled fizzy water And you were shaking me up You are a fingernail running Down the chalkboard I thought I left in third grade Now my only consolation Is that this could not last forever Even though you're Singing and thinking how well You've got it made Who are you? And will you be through Yeah, it's just a phase It will be over soon Yeah, it's just a phase Yeah, it's just a phase

Call it women's intuition
But I think I'm
Onto something here
Temporaryism has been
The black plague
And the Jesus of our age
I know that
I sound opinionated
May be biased and
Quite possibly jaded
But sooner than later
They'll be throwing quarters
At you on the stage

Who are you? And will you be through Yeah, it's just a phase It will be over soon Yeah, it's just a phase Yeah, it's just a phase

And I am waiting for It to be over too
