

Incubus, Smokin' The Herb Again

Yo Yo Yo, Yo, Yo Yo What

Smoking

We're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

Damn, I really wish I could find my sack man

Must have got eaten by Pac-Man

If I had it I could smoke again

Smoke with my friends until the very end

But now I'm trying to comprehend

When's the next time that I'll smoke again

I need to know, please tell when will we smoke again

I got a buddy, his name is Ted

He's got a problem going through his head

He doesn't know how to puff puff give

But I like so I'll teach him and I'll let him live

Everyday we teach him right

When he defies, we have to fight

But at the end of the trying day

We says it's ok and we puff away

Just the other night, I saw you, you were smokin not sharing and being tight

But that's ok, you are my friend, we're smoking it until the end

The lessons that we put out, we order you to try it out

It's nice to smoke, yea that's what we're all about

Smoking

We're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

Hey, Ho, Hey, Ho, Hey, Ho, Hey, Ho, Hey, Ho, Hey, Ho

I smoke, you smoke, we smoke, they smoke, smoking everywhere

I smoke, you smoke, we smoke, they smoke, smoking all together

Smoking

We're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again

We're smoking, we're smoking, we're smoking the herb again
