

# Indigo Girls, Dairy Queen

I heard that you were drunk and mean  
Down at the dairy queen  
There's just enough of you in me  
For me to have sympathy  
And take it in stride  
I know I had mine  
And you were as kind  
I am told

Ain't it funny how we lose one day  
And a lifetime  
Slips away  
I'm looking back on us that way  
Something I  
Never thought I'd say  
I take it in stride  
I know I had mine  
It was good for a time  
I am told  
It was good for a time  
I am told

The love you gave was not for free  
But the price  
Was truly fair  
I never felt so glad to be  
So well spent  
So beyond repair  
I take it in stride  
At least you were mine  
If not for all the time  
Enough to hold  
??

Now take good care that you are true  
You said you found it  
Hard to do  
And find that bit of faith that sets you free  
Having everything to prove  
You take it in stride  
And know you got mine  
And it's good for a lifetime  
Or more  
I love you  
I love you more and more  
Oh I love you more and more
